

### Section 1. Identification

#### Product Identifier

Product Name 49N Arctic Synthetic HDMO  
Common Name Motor Oil, 0W30 / 0W40  
Product Code(s) 1403 / 1400

#### Recommended or Restricted Uses

Recommended Use Lubricant  
Restricted Use Not Applicable

#### Canadian Supplier

Supplier 49 North Lubricants  
6611 45<sup>th</sup> Street,  
Leduc, Alberta  
T9E 7E3  
Canada  
Tel: 1-800-463-0354  
Fax: 1-877-917-4949

#### Emergency Telephone Number

Emergency Telephone CHEMTREC: 1-800-424-9300

### Section 2. Hazard Identification

#### Hazard Classification

WHMIS Regulatory Status Hazardous Product  
Physical Hazards Not Classified  
Health Hazards Acute Toxicity  
Environmental Hazards Not Classified

#### Label Elements

Symbol

Signal Word

Danger

Hazard Statements

May be fatal if swallowed and enters airways

Precautionary Statements

Read label before use  
If swallowed contact poison center immediately  
Do NOT induce vomiting

Other Hazards

Not Applicable

### Section 3. Composition / Information on Ingredients

#### Hazardous Product: Mixture

Chemical Name 1-Decene  
Common Name  
CAS Registry # 68037-01-4  
Concentration 30 - 60%

## Section 4. First Aid Measures

### Route of Exposure

|               |  |
|---------------|--|
| Inhalation:   | Move affected person to fresh air and keep warm and at rest. Loosen tight clothing such as collar, tie or belt. If breathing becomes difficult, properly trained personnel can assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing continues. |
| Skin Contact: | Rinse affected area with soap and water. Remove contaminated clothing.   |
| Eye Contact:  | Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes. Seek medical attention.  |
| Ingestion:    | Do not induce vomiting. Seek medical attention immediately.  |

### Most Important Systems and Effects

|               |  |
|---------------|--|
| Inhalation:   | May Cause: Coughing,                         |
| Skin Contact: | May Cause: Temporary Skin Irritation         |
| Eye Contact:  | May Cause: Irritation or Redness in Eyes     |
| Ingestion:    | May be fatal if swallowed and enters airways |

### Immediate Medical Attention and Special Treatment

|                     |  |
|---------------------|--|
| Note for the Doctor | Treat symptomatically. Contact poison treatment specialist if large quantities have been ingested. |
|---------------------|--|

## Section 5. Fire-Fighting Measures

### Extinguishing Media

|                                |   |
|--------------------------------|---|
| Suitable Extinguishing Media   | Extinguish with dry chemical, foam, carbon dioxide powder or water fog. |
| Unsuitable Extinguishing Media | Do not use water jet as an extinguisher, this can spread the fire.      |

### Specific Hazards Arising from the Hazardous Product

|                               |  |
|-------------------------------|--|
| Specific hazards              | Containers can burst violently or explode when heated. Contains Hydrocarbons. The product is immiscible with water and will spread on the water surface. |
| Hazardous combustion products | Toxic fumes. Hydrocarbons. Carbon Monoxide (CO). Carbon Dioxide (CO <sub>2</sub> ).  |

### Advice for Firefighters

|   |  |
|---|--|
| Protective actions during firefighting        | Avoid breathing gases or vapours. Evacuate the area. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. |
| Special protective equipment for firefighters | Not Applicable.  |

## Section 6. Accidental Release Measures

### Personal Precautions, Protective Equipment and Emergency Procedures

|                      |  |
|----------------------|--|
| Personal precautions | Keep unnecessary and unprotected personnel away from spillage. Wear protective clothing as described in Section 8. Follow safe handling as described in Section 7. Wash thoroughly after dealing with a spill. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material. |
|----------------------|--|

### Methods and Material for Containment and Cleaning Up

|                         |  |
|-------------------------|--|
| Methods for cleaning up | Absorb spillage with non-combustible, absorbent material. For small spillages: wipe up with an absorbent cloth. Avoid discharge into drains or watercourses or onto the ground. For large spillages: Contain the spilled material, absorb with non-combustible absorbent material, removed and dispose of contaminated |
|-------------------------|--|

material with a licensed waste disposal site. If environmental pollution occurs (sewers, waterways, soil or air) inform the relevant authorities. Large spills may require pumping of water or excavation of soil to clean up.

Methods for containment

Use berms, skimmers, and absorbent to contain the spillage where appropriate.

## Section 7. Handling and Storage

### Precautions for Safe Handling

Usage precautions

Read and follow manufacturer's recommendations. Do not breathe vapour or mist. Do not ingest. Wear PPE as described in Section 8. Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash before eating, drinking or smoking. Handle all packages and containers carefully. Keep all containers tightly sealed when not in use.

### Conditions for Safe Storage, Including any Incompatibilities

Storage Precautions

Store away from incompatible materials listed in Section 10. Store in accordance with local regulations. Keep containers in a cool, well ventilated location. Do not store in direct sunlight. Empty containers may contain product residue and should be stored accordingly.

Storage Class

Not Applicable

## Section 8. Exposure Controls / Personal Protection

### Control Parameters

Occupational Exposure Limits

Not Applicable

### Appropriate Engineering Controls

Engineering controls

Provide adequate ventilation. Use engineered ventilation to keep the airborne concentration below the recommended exposure limits.

### Individual Protection Measures

General

All personal protective equipment (PPE) should comply with Canada OH&S Regulations (SOR/86-304)

Eye/Face protection

Recommended: Safety glasses. Where splash hazards exist use a face shield as well.

Hand protection

Recommended: Neoprene or heavy nitrile gloves.

Body protection

Recommended: Long sleeved coveralls.

Respiratory protection

Vapourization is not expected at ambient temperatures. If engineered ventilation is inadequate, use a NIOSH-certified respirator with a dual cartridge for organic vapor and P95 particulates.

## Section 9. Physical and Chemical Properties

### Physical Properties

Physical State

Liquid

Colour

Amber

Odour

Mild Petroleum

Odour threshold

Not Available

### Chemical Properties

pH

Not Available

Melting point / freezing point

Not Available

Flash point

> 200°C (closed cup)

Evaporation rate

< 1

Flammability (solid; gas)

Not Available

Lower Explosive Limit

Not Available

Upper Explosive Limit

Not Available

Vapour pressure

< 1 mm Hg @ 25°C

|   |                    |
|---|--------------------|
| Vapour density                            | Not Available      |
| Relative density                          | 0.84 – 0.87        |
| Solubility                                | Insoluble in water |
| Partition coefficient:<br>n-octanol/water | Not Available      |
| Decomposition temperature                 | Not Available      |
| Viscosity                                 | Not Available      |

### Section 10. Stability and Reactivity

|                                    |   |
|------------------------------------|---|
| Reactivity                         | Not Available   |
| Stability                          | Stable  |
| Possibility of hazardous reactions | Not Applicable  |
| Conditions to avoid                | Not Applicable  |
| Incompatible Materials             | Strong Oxidizers  |
| Hazardous decomposition products   | Thermal – CO <sub>2</sub> , CO, trace oxides of sulfur, nitrogen, phosphorus, and zinc. |

### Section 11. Toxicological Information

|                                       |  |
|---------------------------------------|--|
| Routes of Exposure                    | Ingestion, Inhalation, Skin/Eye Contact          |
| <b>Symptoms</b>                       |  |
| Physical                              | Skin/Eye contact may cause irritation or redness |
| Chemical                              | No Available Data                                |
| Toxicological                         | No Available Data                                |
| <b>Exposure Effects</b>               |  |
| Delayed Effects                       | No Available Data                                |
| Chronic Effects                       | No Available Data                                |
| <b>Acute Toxicity Estimates (ATE)</b> |  |
| ATE oral (mg/kg)                      | No Available Data                                |
| ATE dermal (mg/kg)                    | No Available Data                                |
| ATE inhalation (mg/L)                 | No Available Data                                |

### Section 12. Ecological Information

No Available Data.

### Section 13. Disposal Considerations

No Available Data. Follow Local Regulations.

### Section 14. Transport Information

Not Applicable.

### Section 15. Regulatory Information

Not Applicable.

## Section 16. Other Information
