

BAR AND CHAIN OIL

PRODUCT CODE: 2230, 2232

DESCRIPTION

49 NORTH® BAR & CHAIN OIL is a premium quality oil formulated for use in today's high performance chain saws.

QUALITIES

49 NORTH® BAR & CHAIN OIL is formulated with high quality paraffinic base oils combined with effective anti-wear additives and a special tackifier additive to optimize performance.

The anti-wear agents reduce metal-to-metal contact wear between the drive sprocket, the bar guide, and the moving chain. High treat levels of the tackifier additive enhances adhesion of the oil to the sprocket, chain, and bar, thereby reducing oil throw off during operation. Tight control of viscosity allows better calibration of oiling rates, and the additives used with reduce the amount of pitch build-up on the various parts.

APPLICATIONS

49 NORTH® BAR & CHAIN OIL is recommended for use in all brands of chain saws, including high performance and industrial saws, and older, less advanced models.

FEATURES & BENEFITS

High treat levels of tackifier leads to better retention of oil on the chain, bar, and drive sprockets.

Effective anti-wear agents reduce wear in the critical areas and optimize the life of the saw and its chain.

Special additives reduce the pitch build-up on the chain and drive sprocket, thereby reducing maintenance and downtime.

TYPICAL PROPERTIES

Season	Summer	Winter
Product Code	2230	2232
ISO Grade	150	68
Viscosity, Kinematic		
cSt @ 40°C	151.5	70.39
cSt @ 100°C	16.32	9.47
Viscosity Index	114	112
Pour Point, °C	-25	-35
API Gravity	31.1	31.7

The typical properties listed reflect the general characteristics of the product, and are not manufacturing specifications. Normal batch-to-batch variations should be expected.

HEALTH & SAFETY

A complete Safety Data Sheet (SDS) is available upon request.

PACKAGE SIZES

Available in Bulk, 1211L totes, 208L Drums, 20L Pails, 6x 3.78L cases
