

### Section 1. Identification

#### Product Identifier

Product Name 49N Synthetic EP Gear Lubricants  
 Common Name Full Synthetic Gear Oil – ISO 68 / 100 / 150 / 220 / 320 / 460  
 Product Code(s) 30110 / 30120 / 30130 / 30140 / 30150 / 30170

#### Recommended or Restricted Uses

Recommended Use Lubricant  
 Restricted Use Do Not Mist

#### Canadian Supplier

Supplier 49 North Lubricants  
 6611 45<sup>th</sup> Street,  
 Leduc, Alberta  
 T9E 7E3  
 Canada  
 Tel: (780) 986-9260  
 Fax: (780) 986-9650

#### Emergency Telephone Number

Emergency Telephone CHEMTREC: 1-800-424-9300

### Section 2. Hazard Identification

#### Hazard Classification

WHMIS Regulatory Status Hazardous Material  
 Physical Hazards Not Classified  
 Health Hazards Skin Sensitization  
 Environmental Hazards Not Classified

#### Label Elements

Symbol 

Signal Word Warning

Hazard Statements May cause an allergic skin reaction

Precautionary Statements Wear protective gloves.  
 Avoid breathing vapor  
 IF ON SKIN: Wash with plenty of soap and water, if skin irritation occurs seek medical attention.

Other Hazards Not Applicable

### Section 3. Composition / Information on Ingredients

#### Hazardous Product: Mixture

Component Long-chain alkyl amine  
 CAS Registry #  
 Concentration 0.1 – 1%

Note: There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## Section 4. First Aid Measures

### Route of Exposure

Inhalation:	Move affected person to fresh air and keep warm and at rest. Loosen tight clothing such as collar, tie or belt. If breathing becomes difficult, properly trained personnel can assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing continues.
Skin Contact:	Wash affected area with soap and water. Remove contaminated clothing. Seek medical attention in the event of symptoms.
Eye Contact:	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 20 minutes. Seek medical attention if irritation occurs.
Ingestion:	Rinse mouth thoroughly with water. Do not induce vomiting unless under the direction of medical personnel. Move affected person to fresh air and keep warm and at rest. Seek medical attention if adverse health effects persist or are severe.

### Most Important Systems and Effects

Inhalation:	No known significant effects or critical hazards.
Skin Contact:	May Cause: Allergic Skin Reaction, irritation, redness.
Eye Contact:	No known significant effects or critical hazards.
Ingestion:	No known significant effects or critical hazards.

### Immediate Medical Attention and Special Treatment

Note for the Doctor	Treat Symptomatically
---------------------	-----------------------

## Section 5. Fire-Fighting Measures

### Extinguishing Media

Suitable Extinguishing Media	Extinguish with dry chemical, foam, carbon dioxide powder or water fog.
Unsuitable Extinguishing Media	Do not use water jet as an extinguisher, this can spread the fire.

### Specific Hazards Arising from the Hazardous Product

Specific hazards	Containers can burst violently or explode when heated. Contains Hydrocarbons. The product is immiscible with water and will spread on the water surface.
Hazardous combustion products	Hydrocarbons. Carbon Monoxide (CO). Carbon Dioxide (CO <sub>2</sub> ).

### Advice for Firefighters

Protective actions during firefighting	Avoid breathing gases or vapours. Evacuate the area. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk.
Special protective equipment for firefighters	Not Applicable.

## Section 6. Accidental Release Measures

### Personal Precautions, Protective Equipment and Emergency Procedures

Personal precautions	Keep unnecessary and unprotected personnel away from spillage. Wear protective clothing as described in Section 8. Follow safe handling as described in Section 7. Wash thoroughly after dealing with a spill. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material.
----------------------	--

## Methods and Material for Containment and Cleaning Up

Methods for cleaning up	Absorb spillage with non-combustible, absorbent material. For small spillages: wipe up with an absorbent cloth. Avoid discharge into drains or watercourses or onto the ground. For large spillages: Contain the spilled material, removed and dispose of contaminated material with a licensed waste disposal site. If environmental pollution occurs (sewers, waterways, soil or air) inform the relevant authorities. Large spills may require pumping of water or excavation of soil to clean up.
Methods for containment	Use berms, skimmers, and absorbent to contain the spillage where appropriate. Ensure that wildlife is deterred from entering the contaminated area.

## Section 7. Handling and Storage

### Precautions for Safe Handling

Usage precautions	Read and follow manufacturer's recommendations. Wear PPE as described in Section 8. Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash before eating, drinking or smoking. Handle all packages and containers carefully. Keep all containers tightly sealed when not in use.
-------------------	---

### Conditions for Safe Storage, Including any Incompatibilities

Storage Precautions	Store away from incompatible materials listed in Section 10. Store in accordance with local regulations. Keep containers in a cool, well ventilated location. Keep container tight closed and sealed until ready for use. Do not store in direct sunlight. Do not store in unlabeled containers. Empty containers may contain product residue and should be stored accordingly.
Storage Class	Not Applicable

## Section 8. Exposure Controls / Personal Protection

### Control Parameters

Occupational Exposure Limits	Not Applicable
------------------------------	----------------

### Appropriate Engineering Controls

Engineering controls	Provide adequate ventilation. Use engineered ventilation to keep the airborne concentration below the recommended exposure limits.
----------------------	--

### Individual Protection Measures

General	All personal protective equipment (PPE) should comply with Canada OH&S Regulations (SOR/86-304)
Eye/Face protection	Recommended: Safety glasses. Where splash hazards exist use a face shield as well.
Hand protection	Recommended: Neoprene or heavy nitrile gloves.
Body protection	Recommended: Long sleeved coveralls, appropriate footwear based on the task being performed.
Respiratory protection	Vapourization is not expected at ambient temperatures. If engineered ventilation is inadequate, use a NIOSH-certified respirator with a dual cartridge for organic vapor and P95 particulates.

## Section 9. Physical and Chemical Properties

### Physical Properties

Physical State	Liquid
Colour	Yellow
Odour	Slight Sulfur
Odour threshold	Not Available

### Chemical Properties

pH	Not Available
Melting point / freezing point	-46 to -30 °C
Flash point	234 - 244 °C (open cup – Cleaveland)

Evaporation rate	Not Available
Flammability (solid; gas)	Not Available
Lower Explosive Limit	Not Available
Upper Explosive Limit	Not Available
Vapour pressure	Not Available
Vapour density	Not Available
Relative density	0.8473 – 0.854
Solubility	Insoluble in water
Partition coefficient: n-octanol/water	Not Available
Decomposition temperature	Not Available
Viscosity	151 - 680 cSt @ 40°C

### Section 10. Stability and Reactivity

Reactivity	Not Available
Stability	Stable
Possibility of hazardous reactions	Not Applicable
Conditions to avoid	Not Applicable
Incompatible Materials	Oxidizing materials.
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced

### Section 11. Toxicological Information

Routes of Exposure                    Ingestion, Inhalation, Skin/Eye Contact

#### Symptoms

Physical	No Available Data
Chemical	No Available Data
Toxicological	No Available Data

#### Exposure Effects

Delayed Effects	No Available Data
Chronic Effects	No Available Data

#### Acute Toxicity Estimates (ATE)

ATE oral (mg/kg)	No Available Data
ATE dermal (mg/kg)	No Available Data
ATE inhalation (mg/L)	No Available Data

### Section 12. Ecological Information

No Available Data.

### Section 13. Disposal Considerations

No Available Data. Follow Local Regulations.

### Section 14. Transport Information

Not Applicable.

## Section 15. Regulatory Information

---

Not Applicable.

## Section 16. Other Information

---

SDS Revision Date: 07-03-2018

SDS Number(s) 30110 / 30120 / 30130 / 30140 / 30150 / 30170
