

# SAFETY DATA SHEET 49N FIFTH WHEEL GREASE

Revision Date: 12-15-2019

#### Section 1. Identification

**Product Identifier** 

Product Name 49N Fifth Wheel Grease

Common Name Grease Product Code(s) 5406

**Recommended or Restricted Uses** 

Recommended Use Lubricant
Restricted Use Not Applicable

Canadian Supplier

Supplier 49 North Lubricants

6611 45<sup>th</sup> Street, Leduc, Alberta T9E 7E3 Canada

Tel: (780) 986-9260 Fax: (780) 986-9650

**Emergency Telephone Number** 

Emergency Telephone CHEMTREC: 1-800-424-9300

#### Section 2. Hazard Identification

**Hazard Classification** 

WHMIS Regulatory Status Hazardous Product

Physical Hazards Not Classified

Health Hazards SERIOUS EYE DAMAGE / IRRITATION – Category 2A

Environmental Hazards Not Classified

**Label Elements** 

Symbol

Signal Word Warning

Hazard Statements Causes serious eye irritation

May cause an allergic skin reaction

Precautionary Statements Avoiding breathing mist, vapours, or spray

Wash thoroughly after handling Wear hand / eye / face protection

Other Hazards 10% of this product mixture consists of ingredient(s) of unknown acute toxicity

#### Section 3. Composition / Information on Ingredients

### Composition

CAS Registry #

Component Phosphorodithioic acid, mixed

O,O-bis(iso-Bu and pentyl) esters

5,5-dithiobis

1,3,4-Thiadiazole-2(3H)-thione,

Naphthalenesulfonic acid, dinonyl-barium salt (2:1)

zinc salts

68457-79-4

72676-55-2

25619-56-1

Concentration 1 - 5%

1 - 5%

0.1 – 1%

### **Section 4. First Aid Measures**

#### **Route of Exposure**

Inhalation: Move affected person to fresh air and keep warm and at rest. Loosen tight clothing such as collar, tie or belt.

If breathing becomes difficult, properly trained personnel can assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing continues.

Skin Contact: Rinse affected area with soap and water. Remove contaminated clothing.

Eye Contact: Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart.

Continue to rinse for at least 10 minutes

Ingestion: Do not induce vomiting unless under the direction of medical personnel. Do not give anything by mouth.

Seek medical attention immediately.

#### **Most Important Systems and Effects**

Inhalation: May Cause: Coughing,

Skin Contact: May Cause: Temporary Skin Irritation

Eye Contact: May Cause: Irritation or Redness in Eyes

Ingestion: May Cause: Discomfort

#### **Immediate Medical Attention and Special Treatment**

#### **Section 5. Fire-Fighting Measures**

#### **Extinguishing Media**

Suitable Extinguishing Media Extinguish with dry chemical, foam, carbon dioxide powder or water fog.

Unsuitable Extinguishing Media N/A

### Specific Hazards Arising from the Hazardous Product

Specific hazards Containers can burst violently or explode when heated. Contains Hydrocarbons.

Hazardous combustion

products

Hydrocarbons. Carbon Monoxide (CO). Carbon Dioxide (CO<sub>2</sub>).

#### **Advice for Firefighters**

Protective actions during firefighting

Avoid breathing gases or vapours. Evacuate the area. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done

without risk.

Special protective equipment

for firefighters

Not Applicable.

### Section 6. Accidental Release Measures

# Personal Precautions, Protective Equipment and Emergency Procedures

Personal precautions Keep unnecessary and unprotected personnel away from spillage. Wear protective clothing as described

in Section 8. Follow safe handing as described in Section 7. Wash thoroughly after dealing with a spill. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch

or walk into spilled material.

### Methods and Material for Containment and Cleaning Up

Methods for cleaning up Absorb spillage with non-combustible, absorbent material. For small spillages: wipe up with an absorbent

cloth. Avoid discharge into drains or watercourses or onto the ground. For large spillages: Contain the spilled material, removed and dispose of contaminated material with a licensed waste disposal site. If environmental pollution occurs (sewers, waterways, soil or air) inform the relevant authorities.

Large spills may require pumping of water or excavation of soil to clean up.

Methods for containment Use berms, skimmers, and absorbent to contain the spillage where appropriate. Ensure that wildlife

is deterred from entering the contaminated area.

### Section 7. Handling and Storage

#### Precautions for Safe Handling

Usage precautions Read and follow manufacturer's recommendations. If this product is stored in high-pressure systems such as

grease guns or grease lines there is a potential for accidental injection into skin and tissue. Workers should be aware of the significant hazards associated with hydrocarbon injection and seek medical treatment

immediately.

#### Conditions for Safe Storage, Including any Incompatibilities

Storage Precautions Store away from incompatible materials listed in Section 10. Store in accordance with local regulations.

Keep containers in a cool, well ventilated location. Do not store in direct sunlight. Empty containers may

contain product residue and should be stored accordingly.

Storage Class Not Applicable

#### Section 8. Exposure Controls / Personal Protection

#### **Control Parameters**

Occupational Exposure Limits Not Available

**Appropriate Engineering Controls** 

Engineering controls Provide adequate ventilation. Use engineered ventilation to keep the airborne concentration below the

recommended exposure limits.

#### **Individual Protection Measures**

General All personal protective equipment (PPE) should comply with Canada OH&S Regulations (SOR/86-304)

Eye/Face protection Recommended: Safety glasses. Where splash hazards exist use a face shield as well.

Hand protection Recommended: Neoprene or heavy nitrile gloves.

Body protection Recommended: Long sleeved coveralls.

Respiratory protection Vapourization is not expected at ambient temperatures. If engineered ventilation is inadequate, use a NIOSH-

certified respirator with a dual cartridge for organic vapor and P95 particulates.

### Section 9. Physical and Chemical Properties

#### **Physical Properties**

Physical State Smooth Semisolid

Colour Dark Grey
Odour Mild Petroleum
Odour threshold Not Available

#### **Chemical Properties**

pH Not Available

Melting point / freezing point Not Available

Flash point Not Available

Evaporation rate Not Available

Flammability (solid; gas) Not Available

Lower Explosive Limit
Upper Explosive Limit
Vapour pressure
Vapour density
Relative density
Solubility
Not Available
Insoluble in water
Partition coefficient:
Not Available

n-octanol/water

Decomposition temperature Not Available Viscosity NLGI Grade 2

### Section 10. Stability and Reactivity

Reactivity Not Available

Stability Stable

Possibility of hazardous

Not Applicable

reactions

Conditions to avoid Not Applicable

Incompatible Materials Strong Oxidizers. Strong Acids. Strong Bases

**Hazardous decomposition** 

Thermal - CO2, CO, trace oxides, Sulfur, Nitrogen, Phosphorus

products

### Section 11. Toxicological Information

Routes of Exposure Ingestion, Inhalation, Skin/Eye Contact

**Symptoms** 

Physical Skin/Eye contact may cause irritation or redness

Ingestion may cause discomfort

Chemical No Available Data

Toxicological No Available Data

Exposure Effects

Delayed Effects No Available Data
Chronic Effects No Available Data

**Acute Toxicity Estimates (ATE)** 

ATE oral (mg/kg)

ATE dermal (mg/kg)

No Available Data

No Available Data

ATE inhalation (mg/L)

No Available Data

### Section 12. Ecological Information

No Available Data.

### Section 13. Disposal Considerations

No Available Data. Follow Local Regulations.

### Section 14. Transport Information

Not Applicable.

# Section 15. Regulatory Information

Not Applicable.

## Section 16. Other Information

SDS Revision Date: 06-18-2018 SDS Number(s) 5406
